Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I also feel that as a college student, money that is already stretched as far as it will go should not be stretched any farther. I find this increase pay to also be a problem because I only use my Tracfone when needed. The whole reason I use this prepaid service is so that I do not pay for something I am using. Raising the cost will be a charge that I have no need for and would force me to have to drop my use of Tracfone.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Nate Green
